Ahmed Mahmoud Fouad

Software Engineer | Flutter Developer | Mobile Application Engineer

Cairo, Egypt | AhmedFouad2014@gmail.com | ahmedfouadrm.github.io
linkedin.com/in/ahmedfouadrm | github.com/ahmedfouadrm

Summary

Flutter Engineer with 3+ years building iOS & Android apps, including a telehealth platform and a fintech app live on Google Play and the App Store. Comfortable below the Flutter layer with native **Swift/Kotlin platform channels**; works in **Clean Architecture** and **BLoC**. Holds an **M.Sc. in Artificial Intelligence** with research published in *Scientific Reports* (Nature Portfolio).

Technical Skills

Languages: Dart, Kotlin, Swift, Java, Python | Arabic (native), English (full professional)
Flutter & Architecture: Clean Architecture, BLoC/Cubit, Provider, get_it, auto_route, build flavors, Flutter packages
Native & Device: Platform Channels, Bluetooth LE (iHealth SDK), CallKit, NFC, QR, Biometrics, Deep Links
Networking & Data: REST, Dio, Retrofit, Drift (SQLite), Firestore, flutter_secure_storage, envied
Integrations: ZegoCloud, Jitsi, Fawaterak payments, In-App Purchases, Google Maps, Apple/Google Sign-In
Firebase & Release: FCM, Auth, Crashlytics, Analytics, Fastlane, App Store Connect, Play Console, Git
Testing & Practices: Unit, Cubit & Widget tests (mocktail), Code Reviews, Agile/Scrum

Professional Experience

Bit-Tech **Nov 2024 – Present**
Mobile Application Engineer *Maadi, Cairo, Egypt*

- Ship and maintain **Doctoria**, **VCard**, and **Locmefi**; top contributor by commits on Doctoria (1,000+).
- Handle native Swift/Kotlin work and built a **shared chat package** reused across apps.

Xeer **Jan 2026 – Present**
Mobile Application Engineer (Part-Time) *Remote*

- **Main contributor** (70%+ of commits) after taking over an existing codebase; features end to end.

Modern Academy for Computer Science **Oct 2018 – Nov 2024**
Mobile Software Engineer & Academic Instructor *Maadi, Cairo, Egypt*

- Taught 5,000+ students (Flutter, Java, SQL, OS) and supervised 20+ capstone projects.

Projects

Doctoria – telehealth | Play | App Store **Flutter, Swift, Kotlin, ZegoCloud, Firestore**

- Built native **iHealth Bluetooth integration** for 5 medical devices over **Swift/Kotlin platform channels**.
- Integrated **ZegoCloud/Jitsi** video consultations with native **CallKit** incoming calls, and **Fawaterak** payments (cards, Fawry, Aman, mobile wallets).
- 29 modules, 3 build flavors, Arabic/English; automated Play releases with **Fastlane**.

Xeer – personal finance | Play | App Store **Clean Architecture, BLoC, Retrofit, Drift**

- Built most features: currency conversion, debt payoff planner, financial personality report, *Jarida* feed.
- Built auth (Apple, Google, WhatsApp OTP, biometrics) and **in-app purchase** subscription tiers with feature gating.
- **Clean Architecture**, BLoC, Retrofit, **Drift** offline cache; unit, Cubit, and widget tests.

Chat Module – internal Flutter package **Clean Architecture, BLoC, Firestore**

- Reusable chat package for Doctoria mobile and web: pagination, read receipts, presence, voice notes.

VCard (Play, App Store) & **Locmefi** (App Store) **NFC, QR, Google Maps, FCM**

- VCard: contact exchange over **NFC** and **QR**. Locmefi: live map tracking with **geofence** alerts via FCM.

Education

Faculty of Computers and Artificial Intelligence, Benha University **Feb 2019 – Mar 2026**
Master of Science in Artificial Intelligence – Digital Forensics & Deep Learning *Benha, Egypt*

- **Published:** Multi-branch network for double JPEG detection and localization, *Scientific Reports (2025).*

Modern Academy for Computer Science **Sep 2014 – Jun 2018**
Bachelor of Science in Computer Science (Excellence with Honors) *Cairo, Egypt*
